DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-21, and 39, drawn to an OmpH *Lawsonia* spp. polypeptide.

Group II, claim(s) 22-24, 30-38, drawn to polynucleotides encoding a *Lawsonia* spp. OmpH polypeptide, and a first method of using such.

Group III, claim(s) 25-29, drawn to antibodies to *Lawsonia* spp. OmpH polypeptides, and a first method of using such.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: each of these inventions relates to a different type of molecule, each having a different structure, and a different function and mode of operation. Because the different groups of inventions each relates to a different molecule, the groups lack a common special technical feature, and therefore lack unity.

Conclusion

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1648

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
